Doosan Heavy Industries Vietnam or Doosan Vina is a subsidiary of the more than one hundred year old Doosan Group of Korea.

Doosan Vina in conjunction with our parent company brings over a century of experience that includes advanced technology, a highly skilled workforce and state-of-the-art production facilities to every project. Doosan has completed many mega infrastructure projects and exported its products to countries all over the globe, this includes more than 650 Material Handling Systems we’ve supplied to customers the world over; and those customers confirm that our cranes are some of the highest quality, most efficient and competitively priced cranes in their operation.

Doosan Vina's talented engineers have been trained and supported by the experts in Korea to assure that our products are absolutely the best. From design to manufacture, erection and inspection, our products are proudly the cost effective choice of the logistics companies worldwide.

Doosan is a leader in the design, manufacture and service of all types of Material Handling Systems including: Ship-to-Shore or Rail Mounted Quayside Cranes (RMQC), Rail Mounted Gantry Cranes (RMGC) and Rubber Tired Gantry Cranes (RTGC)
