

Smiles abound during the week long medical service that saw 2,500 people receive free medical attention.

5th Annual Medical Service

Talking about the heart surgery her daughter will receive in Korea, Bui Thi Them, mother of four year old Huynh Thi Ngoc Thuan of Nghia Hanh district said, "My daughter suffers from this and she can't play normally like other kids her age because her health is so unstable. We struggle with just our daily needs so could not even imagine paying for this surgery. When we received the message from Doosan Vina that we were selected for the free cardiac surgery in Korea we were so happy and excited. We are so grateful to Doosan Vina and Chung Ang hospital."

The two heart patients and their families departed for Korea immediately after the service in Vietnam and the doctors took the children to Chung Ang University Hospital in Korea for surgery between July 13th and 27th.

Dr. Lee Chae Song, CAU group leader is interviewed by VTV's Hoang Thai
